

# HARRY SMITH UK CAR RACER

**HSR**  
HARRY SMITH RACING

## JSCC

JUNIOR SALOON CAR CHAMPIONSHIP

### About Me

Motorsport is in my blood...So, flashback to the early 2000's when my Mum and Dad met through Motorsport. Being at the race track with them, the petrol and motorsport bug cemented itself at an early age!

Both my Parents and my Gramps raced, so as soon as the time was right, I made my jump into Motorsport.

I have no previous experience in karting or cars so this has been a big learning curve for me, especially up against other competitors who have karded since the age of 6!

I am currently competing in my first full year of racing with the JSCC and have gone from finishing in the top 20 to finishing within the top 10, an achievement I am very proud of. My next goal is to get on that podium and with the brilliant Westbourne Motorsport team and my family behind me its definitely going to come soon...

### What can we can offer you?

I currently race with the JSCC, the biggest Junior race car series in the UK. With this, constant social media interaction is a standard thing. As we are on the BARC programme, our races are frequently shown "live" via their facebook channels as well as Youtube, for all to see.

Then we get to my car, the biggest billboard of all. Your brand can be present on my car for the full season and we can even give you complimentary tickets to selected races, to get you up close to the action!

My race overalls are a blank canvas, again, we are able to add your branding to them.

I am lucky to have a great social media following, so we can share your brand with our followers, bringing your company to new people. We would love to talk further with you and create a bespoke partner package to suit you.
